TOVAGLIETTE SEMIRIGIDE

Vista la crescente richiesta di tovagliette 30x40 abbiamo inserito un prodotto spunlaid da 80 gr/mq caratterizzato da rigidità dovuta all'importante spessore che dona corpo alla tovaglietta, trattandosi comunque di un prodotto usa e getta, sempre igienico.

Queste caratteristiche permettono una buona presa, facilitando l'apparecchiatura evitandone pieghe e spostamento involontari durante l'utilizzo.

Da proporre in sostituzione alle tovagliette in materiali sintetici, cosiddette "riutilizzabili" ma poco igieniche e più dispendiose considerando il tempo e prodotti impiegati per passarle ad ogni nuovo utilizzo con igienizzanti.
